

# 2010 Summer Teen Musical

## Course Description and Registration Form

The Summer Teen Musical program introduces participants to the theatrical process with an emphasis on the creation development and cultivation of a positive learning environment. The motto for the program is "Process over Product": this simply means if the process is learned and implemented, then the product will be successful. The process includes auditioning, rehearsal and performance. During the course of the play students will learn proper stage directions, vocal training, dance training, as well as other technical areas involving theatre such as scene construction, scene painting, and theatrical makeup. The goal for these young individuals is to give them a working framework for the field of theatre. They will take with them this framework for further development in theatre and participation with other productions, or at least develop an appreciation for the performing arts.
